

Title of role	Archaeological Archive Volunteer
Project name	Northamptonshire Archaeological Resource Centre:
	Cataloguing and Re-boxing of Archaeological Material.
Main objectives	The new Northamptonshire Archaeological Resource
	Centre (ARC) will hold over 20,000 boxes of
	archaeological material and associated paper records
	from over 3,000 archaeological sites within the county.
	The majority of the objects in our archives date from
	the Neolithic (4000 BC) period through to the 19th
	century, though we do also have earlier Palaeolithic
	and Mesolithic material.
	Currently these archives are almost entirely
	uncatalogued. They have been previously stored for
	many years in unsuitable conditions.
	We are looking for a team of volunteers to help with
	the re-packaging and cataloguing of these archives. This
	will greatly improve the accessiblity of our collections
	and their level of care to ensure they are useable for
	researchers and future generations – the journey of
	rediscovery.

	Volunteers will be given a chance to handle real
	archaeological objects and develop their knowledge
	about them and their curation.
Tasks and activities	Typical daily tasks:
	Re-boxing, bagging and labelling of
	archaeological finds and associated
	documentary archives. Re-boxing allows for
	restorations of materials.
	Washing of archaeological material.
	• Ensuring all archaeological materials are
	restored and kept under strict environmental
	controls.
	<ul> <li>Cataloguing of archaeological material on excel</li> </ul>
	spreadsheets to be imported into the ARC
	Database system – eventually allowing for
	online access.
	The ARC has a range of other areas which volunteers
	may also be able to work on including:
	<ul> <li>Assisting with finds handling events for the</li> </ul>
	members of the public to engage them with
	the material within the archive.
	<ul> <li>Helping with tours of the ARC building for the</li> </ul>
	public.

	<ul> <li>Selecting and researching objects for our website blog and social media channels.</li> <li>Supporting the development of displays of recently excavated material.</li> </ul>
Reporting to	Ben Donnelly-Symes (Archaeological Archive Curator) 07912 891699 ben.donnelly-symes@northnorthants.gov.uk
Location	Northamptonshire Archaeological Resource Centre Chester House Estate Higham Road, Irchester, NN29 7EZ (off the A45 just before Rushden exit 16 east-bound)
Work hours	Flexible. Half Day or full day between 10am and 4pm. Both weekday and weekend sessions will be available
Skills/attributes/experience desired	<ul> <li>An interest and enthusaism for archaeology and/or history.</li> <li>A lot of the archives are quite dusty or muddy so a willingness to get your hands dirty.</li> <li>A high attention to detail for labelling objects,</li> </ul>
